

# Team Building & Leadership Development

Give us a call to customize your event...

and experience the RUSH!

## Our PURPOSE

Our purpose is to strengthen yours. Whatever your affinity, whether corporate, social, academic, civic, athletic, or otherwise, you have a purpose.

With over 40 years of challenge course experience, our professional staff will strive to foster growth in the following areas:

- Self-awareness
- Self-discovery
- Self-actualization
- Teamwork
- Leadership
- Organizational Development

As individuals are strengthened and encouraged, their sense of value rises and the team's potential increases exponentially.

## Our PROCESS

A challenge course is an experiential program consisting of initiatives, games, low elements, trust exercises, and elements ranging from low complexity to high complexity.

Your custom designed experience will begin with ice-breakers, initiatives, and games that begin to stimulate thought processes and methodology. You will progress to engaging shared experiences that bring focused attention to team dynamics that result in those 'ah-ha' moments that will potentially shift your paradigms. The following will be engaged throughout your experience:

- Each activity incorporates guided instruction, monitored and encouraged progress, and thought – provoking processing so that participants leave with 'take-aways'
- Classroom time with group discussions and debriefings
- Challenges faced as individuals, in pairs, in small groups and as a team

Our course serves the recreational, educational, developmental and re-directional needs of our guests. A program can be designed for fun only or assist a corporation in bringing about sustainable change.
